Tanish Singla

tsinglabe23@thapar.edu — LinkedIn — LeetCode — GitHub

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3, SQL
Frameworks & Libraries: React.js, Vue.js, Node.js, Django, Express, Framer Motion
Cloud & DevOps: Amazon Web Services (AWS), Docker, Linux CLI, Git Version Control, CI/CD
Core Competencies: Data Structures & Algorithms, UI/UX Design, RESTful APIs, Performance Optimization
Algorithmic Logic: Solved 300+ Problems (150+ across LeetCode and GeeksforGeeks)

Achievements & Competitions

- **Winner – Smart India Hackathon (SIH) 2025 Hardware Edition** *Dec 2025*
  Selected as Full-Stack Developer among **top 1% of 40,000+ teams** across India.
- **Adobe Hackathon 2025** *Feb 2025*
  Ranked among **Top 2000 teams out of 150,000+ participants** for AI-based document processing solution.

Projects

NDRF Chemical Disaster Training Dashboard – SIH 2025 Winner *MERN Stack — Dec 2025*
- Architected a scalable full-stack platform supporting **55+ active users** with concurrent training sessions.
- Implemented role-based authentication securing **100% of user sessions** for **50+ trainees and 5 administrators**.
- Engineered assessment modules generating **instant performance reports** and reducing manual evaluation effort by **60%**.
- Constructed **6 core functional modules** enabling user management, analytics, course delivery, and progress tracking.
- Optimized workflow automation, decreasing administrative overhead by approximately **40%**.

AI PDF Parser (Adobe Hackathon Project) *Python, NLP, Docker — Feb 2025*
- Engineered an automated parser capable of processing PDFs up to **500+ pages per file**.
- Designed NLP pipelines achieving **92% heading extraction accuracy** across a dataset of **100+ test documents**.
- Automated document workflows, reducing analysis time from **3–5 minutes to under 10 seconds per file**.
- Deployed containerized solution enabling consistent execution across **multiple environments**.

Bank Management System *Node.js, MySQL — Nov 2024*
- Implemented **12 RESTful API endpoints** for account creation, transfers, and balance tracking with structured routing.
- Integrated authentication and validation workflows securing **100% of transactions** and preventing invalid data inputs.
- Designed database schema handling **multi-user accounts and transaction logs** with relational integrity.
- Optimized backend performance achieving simulated response times of **sub-200ms per request**.

Education

Thapar Institute of Engineering and Technology, Patiala *Aug 2023 – Jun 2027 (Expected)*
Bachelor of Technology in Computer Science and Engineering
Relevant Coursework: Data Structures & Algorithms, Web Development, Software Engineering

Certifications

- **TypeScript Certification by Xebia** *Jun 2026*
- **Smart India Hackathon 2025 – Hardware Edition Winner Certificate** *Dec 2025*
- Adobe Hackathon 2025 – Certificate of Achievement *Feb 2025*
- Django Certification by Great Learning *Aug 2024*
